03

Understand the Competition Brief

- **Theme/Challenge**

- What is the central problem or theme?

- **Criteria**

- What will judges be scoring (e.g., innovation, feasibility, impact)?

Audience

- Are you pitching to investors, scientists, or the public?

Develop a Strong Idea

04

Originality:

Is it truly innovative or a new twist on something existing?

Problem-Solution Fit:

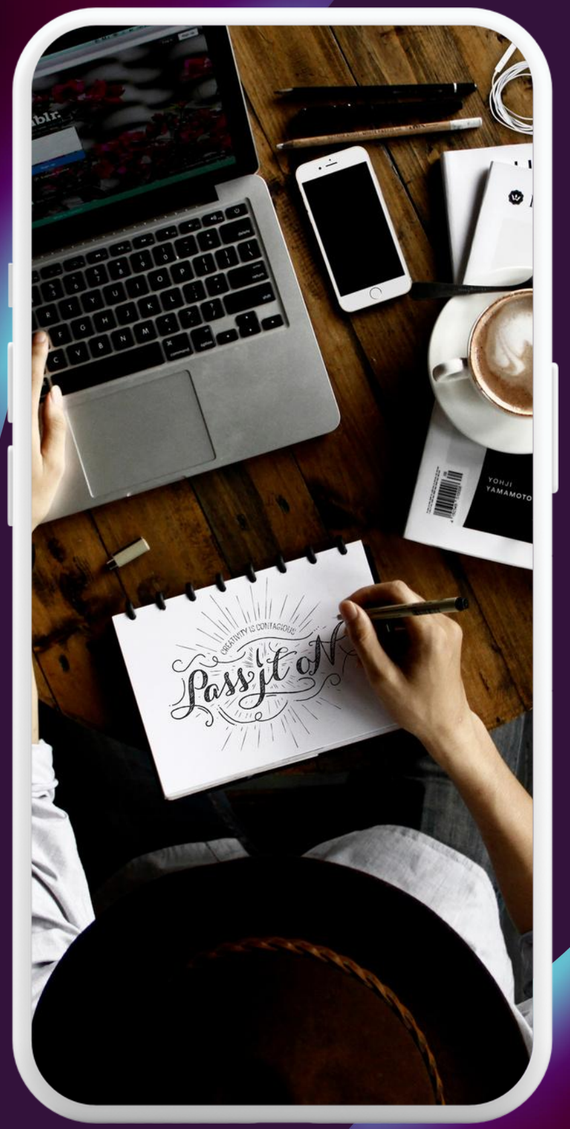
What real-world problem are you solving?

User Need:

Who needs this and why?

Prototype or Visuals

- Prototype (if possible): A demo, model, or simulation. Can be physical or digital.
- Mockups: UI/UX designs, diagrams, concept art.
- Process Sketches: Show the evolution of your thinking.



06

Research & Validation

01

Market/Impact Research:

- Prove there’s demand or need.

02

Competitor Analysis:

- Who else is doing this, and why are you better?

03

Surveys or Interviews:

- Real feedback, if you can get it.

Documentation

- Pitch Deck (slides): Clear, short, and visually appealing.
  - Problem
  - Solution
  - Market/Users
  - Tech/How it works
  - Business model (if relevant)
  - Impact
  - Team
  - Call to action
- Executive Summary: A one-pager overview.
- Intellectual Property
- Publications

- Technical Details: If required, a write-up of the method/design.

08

Pitch/Presentation Prep

Pitch/Presentation Prep

- Script it out: Or at least have a structure. Know your product/innovation well!
- Practice Timing: Stay within your time limit!
- Q&A Practice: Prepare for common and tough questions.
- Confident and fast thinking!

Team Roles (if working in a group)

Clear responsibilities

- Know your role

Spokesperson for pitching

Select the spokeperson but the rest need to always ready for backup

06

Bonus Tips

01

Think about scalability and sustainability.

02

Make it story-driven – people remember stories more than stats.

03

Bring passion – it’s contagious!

Identify your cluster and align your pitching along the cluster selected.

Good Luck!

May **GOLD** will yours. Ameen.
